## Gasketed Spiral Duct Fittings

HercSeal gasketed spiral duct fittings are constructed from galvanized steel meeting spec ASTM A-653 (Lockforming quality). They feature a double legged gasket that creates an airtight connection when slipped into the spiral pipe.

- 180° degree hemmed edge
- SMACNA Leakage Class 3 for -10" w.g. +10" W.G.
- Designed for a tight snug fit
- Seal gasket operating temperature -40° to +250° F
- Smoke and Flame Spread 0/0 compliance ASTM E-84-91A
